

Dear Sirs; I would like to express my opinion on the Elimination of the Morse code requirement for HF access on Amateur Radio. I feel it is an outdated mode of communication, and deserves no special preference over any other method of communication.

I have passed written exams for General and Extra Class, but have not gone any further because I simply have no desire, no need, or time for Morse Code. I think by removing this requirement, many other people will be able to easily see the benefits of becoming Amateur Radio Operators, and thus, revive this shrinking group of people.

Thank You,
G. Michael Roges
